Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

DISCLAIMER: This product does not contain microorganisms.

APPLICATION RATES:

Agriculture Use - Apply as a foliar at the rate of 1-2 quarts per acre, 1-4 times/ growing season.

Turf Use - Apply to greens and tees at the rate of 4 ounces per 1,000 square feet per week; fairways at the rate of 1-2 gallons per acre per month.

DIRECTIONS FOR USE:

Shake well before use. BioFlora Seaweed Creme® is non-phytotoxic and is formulated for soil or foliar application. It is designed to supplement all fertilizer programs, and can be applied through injection and drip irrigation, fertigation or sprayer system. Minimum dilution is 1:20 in water; maximum dilution is not critical. Do not use with quaternary ammonium or alcoholic solutions. Products high in calcium must be diluted 1 to 5 with water before mixing.

HANDLING:

In case of accidental exposure, flush with water. Product is non-hazardous.

CC issued by BCS, input compatible with (EC) n° 889/2008 and NOP 7 CFR Part. 205, for use in organic crops as fertilizer.
