

### Section 1: Product Identification

TRADE NAME: GreenAll  
 PRODUCT USE: Organic Fertilizer  
 BUSINESS NAME: E.B. Stone & Son, Inc.  
 BUSINESS ADDRESS: P.O. Box 550 Suisun, CA 94585  
 BUSINESS PHONE: 800-473-3625

### Section 2: Hazard Identification

HAZARD CLASSIFICATION: ➤ Skin irritation

#### WARNING

HAZARD STATEMENT: ➤ May be harmful if swallowed  
 ➤ May be harmful if inhaled

PRECAUTIONARY STATEMENT: ➤ If medical advice is needed, have product container or label at hand.  
 ➤ Keep out of reach of children.  
 ➤ Read label before use.

PREVENTION: ➤ Keep container tightly closed.

RESPONSE: ➤ Get Medical advice/attention if you feel unwell.  
 ➤ If ingested rinse mouth.  
 ➤ Fight fire with normal precautions from a reasonable distance.

STORAGE/DISPOSAL: ➤ Store in a dry place.  
 ➤ Protect from sunlight.

OTHER HAZARDS: ➤ None

### Section 3: Composition/Information on Ingredients

| CHEMICAL NAME          | COMMON NAME                | CAS#       | IMPURITIES AND STABILIZING ADDITIVES | CONCENTRATION |
|------------------------|----------------------------|------------|--------------------------------------|---------------|
| N/A                    | Treble Superphosphate      | N/A        | None                                 | N/A*          |
| N/A                    | Potassium Sulfate          | 7778-80-5  | None                                 | N/A*          |
| N/A                    | Sulfate of Potash Magnesia | 14977-37-8 | None                                 | N/A*          |
| Pure Elemental Sulphur | Elemental Sulfur           | 7704-34-9  | None                                 | N/A*          |
| Iron Sucrate           | Iron Sucrate               | 8047-67-4  | None                                 | N/A*          |
| Manganese Sucrate      | Manganese Sucrate          | 7439-96-5  | None                                 | N/A*          |
| N/A                    | Zinc Sucrate               | N/A        | None                                 | N/A*          |
| Humic Acids Extract    | Humic Acid                 | 1415-93-6  | None                                 | N/A*          |

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

### Section 4: First Aid Measures

| EXPOSURE     | SYMPTOM                                                                                    | RECOMMENDATION                                         |
|--------------|--------------------------------------------------------------------------------------------|--------------------------------------------------------|
| Inhalation   | N/A                                                                                        | Remove to fresh air                                    |
| Skin Contact | Prolonged contact may be mildly irritating to skin, eyes and respiratory mucous membranes. | Wash with soap and water to remove from skin and hair. |

|             |     |                                                                                                                                          |
|-------------|-----|------------------------------------------------------------------------------------------------------------------------------------------|
| Eye Contact | N/A | Hold eye open and rinse slowly and gently with water for 15 minutes or until irritation subsides. Obtain medical attention if necessary. |
| Ingestion   | N/A | Give large amounts of water. Consult a physician.                                                                                        |

|                                |                                                                                                                                                                                                                      |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| MEDICAL CONDITIONS             | None known                                                                                                                                                                                                           |
| AGGRAVATED BY EXPOSURE:        |                                                                                                                                                                                                                      |
| RECOMMENDATIONS TO PHYSICIANS: | All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred. |

### Section 5: Fire-Fighting Measures

|                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| SUITABLE EXTINGUISHING MEDIA:       | Use suitable agent for surrounding fire. Dry chemical or water to extinguish fuel feeding fire.                                                                                                                                                                                                                                                                                                                                                                               |
| UNSUITABLE EXTINGUISHING MEDIA:     | No known unsuitable extinguishing media                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| UNUSUAL FIRE AND EXPLOSION HAZARDS: | This product has no unusual fire or explosion hazards.                                                                                                                                                                                                                                                                                                                                                                                                                        |
| HAZARDOUS COMBUSTION PRODUCTS:      | This product has no hazardous combustion products.                                                                                                                                                                                                                                                                                                                                                                                                                            |
| SPECIAL FIRE FIGHTING PROCEDURES:   | Incipient fire responders should wear eye protection. Structural firefighters must wear Self-Contained Breathing Apparatus and full protective equipment. Isolate materials not yet involved in the fire and protect personnel. Move containers from fire area if this can be done without risk; otherwise, cool with carefully applied water spray. If possible, prevent runoff water from entering storm drains, bodies of water, or other environmentally sensitive areas. |

### Section 6: Accidental Release Measures

|                                |                                                                                                |
|--------------------------------|------------------------------------------------------------------------------------------------|
| PERSONAL PRECAUTIONS:          | Wear mask to avoid excessive dust inhalation.                                                  |
| EMERGENCY PRECAUTIONS          | None                                                                                           |
| ENVIRONMENTAL PRECAUTIONS      | Prevent from entering storm drains, bodies of water, or other environmentally sensitive areas. |
| CONTAINMENT/CLEAN-UP MEASURES: | Pickup material for reuse, recycling or disposal.                                              |

### Section 7: Handling and Storage

|                                             |                                                                                                                                                     |
|---------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| HANDLING:                                   | Handle in accordance with good industrial hygiene and safety practices. Avoid breathing dust and wash hands after handling.                         |
| STORAGE:                                    | Store in a dry area.                                                                                                                                |
| SPILL OR LEAK PROCEDURES:                   | Contain to prevent entry into sewer or water course. Clean spill immediately. Wear dust mask, eye protection and gloves when working with material. |
| DISPOSAL                                    | Sweep up spilled material and place in suitable container for recycle or disposal. Dispose in accordance with local regulations.                    |
| RECOMMENDATIONS:                            | None known.                                                                                                                                         |
| INCOMPATIBLE MATERIALS OR IGNITION SOURCES: |                                                                                                                                                     |

### Section 8: Exposure Controls/Personal Protection

| EXPOSURE LIMITS/GUIDELINES |                                                                                               |            |            |

| Humic Acid        | Not Listed                                                        | Not Listed | Not Listed |

**ENGINEERING  
MEASURES/CONTROLS  
PERSONAL PROTECTIVE  
EQUIPMENT:**

Use local exhaust ventilation to control airborne dust.

**RESPIRATORY:  
VENTILATION:  
EYE/FACE:  
HANDS:  
SKIN/BODY:  
GENERAL INDUSTRIAL  
HYGIENE  
CONSIDERATIONS:  
ENVIRONMENTAL  
EXPOSURE CONTROLS:**

Use NIOSH/MSHA approved dust type respirator.  
Open. Use outdoors or in a well ventilated area.  
Tight fitting goggles.  
Gardening gloves recommended  
Wear protective clothing to avoid prolonged skin contact  
Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Safety shower and eye wash should be available close to work areas.  
Follow best practice for site management and disposal of waste.

## Section 9: Physical and Chemical Properties

| MATERIAL DESCRIPTION                   |                |                                          |                                             |
|----------------------------------------|----------------|------------------------------------------|---------------------------------------------|
| PHYSICAL FORM:                         | Granules       | APPEARANCE/DESCRIPTION:                  | White and grey granules, light, earthy odor |
| COLOR:                                 | White and grey | ODOR:                                    | Earthy                                      |
| TASTE:                                 | Unknown        | PARTICULATE TYPE:                        | Not relevant                                |
| PARTICULATE SIZE:                      | Not relevant   | AEROSOL TYPE:                            | Not relevant                                |
| VAPOR PRESSURE:                        | Unknown        | pH:                                      | Not relevant                                |
| RELATIVE DENSITY:                      | Unknown        | MELTING/FREEZING POINT:                  | Not relevant                                |
| SOLUBILITIES:                          | Not relevant   | INITIAL BOILING POINT AND BOILING RANGE: | Not relevant                                |
| FLASH POINT:                           | Not relevant   | EVAPORATION RATE:                        | Not relevant                                |
| FLAMMABILITY (SOLID, GAS)              | Not relevant   | UPPER/LOWER FLAMMABILITY:                | Not relevant                                |
| VAPOR PRESSURE:                        | Unknown        | RELATIVE DENSITY:                        | Not relevant                                |
| PARTITION COEFFICIENT: N-OCTANOL/WATER | Not relevant   | AUTO-IGNITION TEMPERATURE:               | Not relevant                                |
| DECOMPOSITION TEMPERATURE:             | Not relevant   | VISCOSITY:                               | Not relevant                                |

## Section 10: Stability and Reactivity

**REACTIVITY:** Nonreactive  
**CHEMICAL STABILITY:** Stable  
**POSSIBILITY OF HAZARDOUS REACTIONS:** Low  
**CONDITIONS TO AVOID:** None  
**INCOMPATIBLE MATERIALS:** None  
**HAZARDOUS POLYMERIZATION CONDITIONS:** Will not occur.

HAZARDOUS  
DECOMPOSITION  
PRODUCTS:

None

*All information, recommendations and suggestions appearing herein concerning our products are based upon tests and data believed to be reliable. However, it is the user's responsibility to determine the safety, toxicity and suitability for his own use of the product described herein. Since the actual use by others is beyond our control, we make no guarantee, expressed or implied, as to the effects of such use, the results to be obtained, or safety and toxicity of the product; nor do we assume any liability arising out of use, by others, of the product referred to herein. The information herein is not to be construed as absolutely complete since additional information may be necessary or desirable when particular or exceptional conditions or circumstances exist or because of applicable laws or government regulations.*
