

UNLEASHTM

ROOT INOCULANT

**FOR SOIL &
HYDROPONICS**

Biological Activity

Nitrogen Absorption

Nitrogen Fixation

*Not for use in organic crop and organic food production in the state of California.

VOLUME: 2.5 Gallons (320 fl oz / 9463 mL)

- ⚡ Soil corrective promotes root zone biological activity and nitrogen availability
- ⚡ Contains a dynamic blend of naturally occurring microorganisms
- ⚡ Establishes beneficial soil microbial populations in the root zone
- ⚡ Safe to use with compost teas, fertilizers and other soil additives

DIRECTIONS Unleash is applied at a rate of 1 liter per acre which is split into 2 applications of 500 mL (or 2 cups).			
Application 1 2 Cups  + 10 Gal. Water Shake well, then mix the 500 mL (or 2 cups) of Unleash with 35 liters (or 10 gallons) of non-chlorinated water.		Application 2 2 Cups  + 10 Gal. Water Proceed with the second application 3 weeks after the first application to complete the treatment.	
Tip 1: Allow mixture to rest for 20 minutes up to 4 hours before applying. If needed mixture can be applied up to 3 days after mixing.		Tip 2: Inject gradually to ensure it is evenly spread throughout the acre.	
		Tip 3: Continue watering to ensure the bacteria reach the root zone of the plants, typically 2-6 hours more.
